

Are you interested in an exciting career cultivating and processing cannabis?

As you're probably aware, the cannabis industry is growing extremely fast, which is creating a huge demand for well-trained people who understand cannabis cultivation, processing, and compliance.

That's why we're happy to introduce you to the Cannabis Cultivation Specialist Program, a 9-week online training designed to empower you with the knowledge, skills, and credibility needed to succeed as a cannabis cultivation professional today.

Taught exclusively by leading industry experts and operators on the frontlines of cannabis, this impactful online program has 3 units of study, and will help you become a confident and in-demand cannabis cultivation professional.

### Unit 1: Cannabis Industry Fundamentals

You'll discover how the cannabis industry actually works, from seed to sale, including the business of cultivation, distribution, manufacturing, and lab testing. This unit will give you a foundational understanding of the cannabis supply chain, so you can speak confidently to others in the industry, and successfully work within many different roles and verticals.

### Unit 2: Cannabis Cultivation Skills & Best Practices

Learn all about the cannabis plant and how to grow it commercially. You will understand the botany and genetics of cannabis before diving into best practices for growing, harvesting, processing and curing. Upon completion of this unit, you will have a solid understanding of what it takes to grow high quality, commercial cannabis.

### Unit 3: Compliance & Operations

Learn all about compliance, which is essential if you want to work in cannabis. You'll get trained on health and safety best practices for cannabis workers, compliantly receiving and transporting cannabis products, maintaining product safety, the need for diversity, equity, and inclusion in cannabis, and much more. The cannabis industry is heavily regulated and most people simply don't understand the rules, so acquiring this knowledge will truly help you stand out from the pack.

This 100% online program is completely self-paced, which means you can complete the lessons at your own pace and on your own time.

Once you do, you will showcase your knowledge and credibility to others with your official certificate backed by the GF Institute -- the industry-standard in cannabis credentials.

You will be granted access to the GF Institute Employer Network, which is made up of growing cannabis companies throughout the country who are eager to hire people with this type of education and qualification.

So whether you're brand new to cannabis, or you want to level-up your skills and knowledge around cultivation, processing, and operations, this industry-adopted credential program will help you advance your career in the ever-expanding legal cannabis industry today.

The future of the cannabis industry is very bright, so don't miss your chance to participate in it today by enrolling in this online program.
